En kort omvej;)

- ◊ **Accelerating Interdisciplinary Research and Collaboration in the Social Sciences and Humanities**
 - ◊ **Social Sciences & Humanities Open Cloud (SSHOC)** is a project funded by the EU framework programme Horizon 2020 and unites [20 partner organisations and their 27 associates](#) in developing the social sciences and humanities area of the [European Open Science Cloud \(EOSC\)](#).
 - ◊ SSHOC [partners](#) include both developing and fully [established European Research Infrastructures](#) from the social sciences and humanities, and the association of European research libraries (LIBER). Between them, they have expertise across the entire data cycle from creation and curation to optimal re-use, training and advocacy.

European Social Survey

◊ Formål med dataindsamling

- ◊ Kortlægning af stabilitet og ændringer i sociale strukturer, leveforhold og holdninger i Europa, samt at forstå forandringer i sociale, politiske og moralske systemer
- ◊ Højere videnskabeligt niveau i den komparative samfundsforskning
- ◊ Udvikling af de bedste indikatorer for national udvikling baseret på medborgernes egne oplevelser og vurderinger
- ◊ Understøttelse af europæiske samfundsforskere i komparative kvantitative metoder og analyse
- ◊ Øget tilgængelig for data om sociale forandringer for forskere, politikere og andre interesserede.
- ◊ Online dataanalyse: <http://nesstar.ess.nsd.uib.no/webview/>
- ◊ Data download – inkl. sæt af nationale data
- ◊ DK-kontakt: [Torben Fridberg, VIVE, tf@vive.dk](mailto:Torben.Fridberg@vive.dk)

ESS on Wellbeing
Explore ESS findings on wellbeing by visiting our interactive website:

**Survey of Health,
Ageing and
Retirement in
Europe**

- ◊ SHARE is the largest pan-European social science panel study providing internationally comparable longitudinal micro data which allow insights in the fields of public health and socio-economic living conditions of European individuals.

The Data section gives access to contextual quantitative indicators based on official statistics and research outcomes.

In the Policy section users will gain access to standardized information about policy changes and their legal supporting documents over time

Taking Part: the National Survey of Culture, Leisure and Sport, 2016-2017; Adult and Child Data

Department for Culture, Media and Sport; NatCen Social Research

Abstract copyright UK Data Service and data collection copyright owner. For Taking Part, 2016-2017, also known as Year 12 of the continuous survey, 9,352 adults were interviewed in the face-to-face cross sectional study. Of these 59% were recruited to the web panel longitudinal follow up. They were invited to complete a web questionnaire on a quarterly basis, these datasets include data collected from Q0-8. Latest edition For the third edition (April 2021) new versions of the face-to-face cros...

26017 studies found in English from a total of 33620

Generations & Gender Programme

A Social Science Infrastructure for Research on Population and Family Dynamics

[Learn more about GGP](#)

- ◊ The Generations & Gender Programme Research Infrastructure provides scientists and policy makers with high quality and **timely data about families and life course trajectories of individuals** to enable researchers to contribute insights and answers to current societal and public policy challenges.
- ◊ The GGP provides users with an **open-access data source of cross-nationally comparative surveys and contextual data**.
- ◊ 2020: New round of data collection: The aim of the GGP is to deliver high quality data for scientific research on **population dynamics and family change, relationships between generations, and changes in the social roles of women and men, accounting for economic, social and cultural contexts**. The GGP is a world leader on issues of **fertility decisions, work-life balance, transition to adulthood, and intergenerational exchanges**. So far, more than twenty countries have participated in our programme.
